

Duty of Candour Annual Report April 2020 – April 2021

Duty of Candour is a legal requirement as set out in the Health, (Tobacco, Nicotine etc and Care) (Scotland) Act 2016 and The Duty of Candour Procedure (Scotland) Regulations 2018, to ensure that if something goes wrong in health or social care services that the people affected are offered an explanation, an apology, and an assurance that staff will learn from this error. Learning is shared with the people affected, within the organisation, and across the sector as required.

The purpose of the Duty of Candour is to ensure organisations are open, honest and supportive when there is an unexpected or unintended incident resulting in death or harm. We must activate the Duty of Candour procedure as soon as reasonably practicable after becoming aware that:

- An unintended or unexpected incident occurred in the provision of the health, care or social work service provided by the organisation as the responsible person;
- In the reasonable opinion of a registered health professional not involved in the incident:
 - a) that incident appears to have resulted in or could result in any of the outcomes outlined in the table below; and
 - b) That the outcome relates directly to the incident rather than the natural course of the person's illness or underlying condition.

Report

It is a requirement that we produce an annual Duty of Candour Report as below:
